What weakness did he have as a person?

**He was abusive with people and was self centered on his personal goals. So when it came to family Junior's memories of Senior it was of him being scary. They don't remember him being very loving or listening a lot to them. The little time they had together was him reading the paper, directing him, or telling to go play games. If it was not something he did**

One of the only things he taught him how to do. There were a few times they went camping but there were bad and good moments but it is the fact they went camping**

together as a family. He went in and took the test with Junior for gun safety and took him out hunting with him a few times that year. Most of conversation was there was something's going on at your mother's and dad's house with a step -sister and he took him out fishing on a river and tried having a deeper conversation.

Any memories that are bad that you would like to share?

A lot of indifference as in him reading paper and it didn't matter you were there. If he gave you attention it was about him not being bugged like saying be quiet. He remembers him when their girls where younger if they were getting C's or less he threat to beat them with the belt. Which was funny from a man who never finished high school. He remembers one of the last times when he was with him basically his step mother put on Christmas music and Senior didn't want it on so he started yelling at her and threatening to hurt her and senior brought his hand back and Junior grabbed his hand. They had a little fight match and that's what it is. He called one time and told the three kids to bring play clothes making them think they were going camping when they got there they found out they had brought a house and the kids ended up working on his house Saturday and Sunday for 16 hours each day doing things like tearing down drywall and old house hair and clay. Which is not good for breathing these things in. Junior and his sisters end up that week feeling sick and came down with stuff after doing this. Their mother didn't know what he was up to until after he had brought the kids home. Junior was invited to stay at Senior's house a week over the summer and when he got up their he found out he was supposed to babysit his three old step-brother (Erick) and he was about 13 at the time. So he could go do different things that he wanted to do. One of the special moments of that week was when he

**called Junior out to help work on his van so he brought Erick and Senior gave him a wire brush so he could get the rust off so he could paint over it. SO while he was wire brushing and whatever Senior was doing on the car. Erick ended up hitting the gear shift on the van. They stopped the van before it went into the road and Junior got in trouble because he was at the backend of the van brushing the rust and wasn't paying enough attention to Erick while he worked. Junior was required that week to change his diapers, and he told that he was going to get a lot of one on one time to do things and all he got to do was work at Senior's house and watch Erick. When he called him two days after his graduation to disown him.**

**Senior impacted him this way when he wasn't apart of his life. He wanted to be a better parent then he was. He made him upset on how he treated my family in the end so at first I was upset with. Junior realized that being mad at him didn't help him in life and he tried to move on. He is blessed to have a good example in his step father. By Senior not being there it made Junior wanted to be a better family member. From being a better son and being a**

**better father he hopes. So he tries to hug his children and show them love by torturing them with love.**

**Shock was the first thing. Also anger and offended. Then torn better feeling anger that your really father would do that and relieved he didn't have to deal with him anymore.**

Would you consider him a good father figure?

**Not really. He was not to us kids but apparently in the firehouse to the youth their he was.**

Does being named after him mean something to you?

**It means he has to answer a question when other people ask if he knows the other Glenn Blaine and he has to answer yes he is my father.**

How has carrying his name impacted your life?

**Unlike his sisters he can't look forward to getting married and switching his names. Senior offered to let Richard switch the kids last names to Shaffer so he didn't have to pay child support anymore. But by the time his father had disowned them. A lot of people called him by Glenn or Blaine so it would be hard to get rid of either of those names. And by getting rid of Junior would cause him problems at the doctors and banking because of all the**

**things his father has done. And he didn't want to go by Eugene so he was stuck with what he had.**

What are some holiday traditions he did with you guys if any?

Did you call him dad as a child and if so why?

**He had to and wasn't aloud to call anyone else dad.**

Would you call him "Dad" now after everything that has happened or occurred between you guys?

**This moment I can't see myself I mean I might refer to him dad so if I do call him anything I would probably just saying this is my father but I wouldn't do a whole lot of that usually nowadays, my stepfather and how else to really say cuz I didn't think I did I'd like to try and even remember what I did.**

Would you say he loved you guys or did you feel loved by him?

**He felt like he loved his sisters. But I didn't feel like he loved me but I thought he was glad to have a son.**
